CONCRETE POWER FINISHER

BATTERY POWER TROWEL

The concrete trowel with 4 blades offers a large surface capacity for trowelling due to its working width of 950 mm and has all the advantages of the proven Bunic tiller trowel.

In addition, however, the battery-powered trowel is low-noise and produces no emissions. It can therefore be used indoors without any problems. The tiller ensures ergonomic working and is equipped with a hand throttle switch for stepless speed control. The machine is equipped with a quick-wing adjustment.

You also have an electronic display in the tiller arm, which shows all other relevant driving data in addition to the battery status. In addition, you can completely control the machine at the control unit (tiller arm) and activate the automatic system.

TECHNICAL INFO

Drive	Direct
Working width	950mm
Battery	24/52Ah
Charging cycles	2500
Drive time	Upto 4 hours
Charge time	2 hours from 20%
Continuous sound pressure level dB(A)	55 dB
Speed 1/min	40-200
Weight machine/battery	97/24kg
Charge current	220V
power kW/PS	1.5/2
motor	Battery, electric
safety	Dead man 's switch/Protective cage

BENEFITS

- Quick charging system with exchangeable battery for non-stop operation
- Sustainable
- Low noise
- Emission-free
- Extremely high rotation
- Stable powder-coated frame
